## TERMS & POLICIES

### RECOMMENDED RETAIL PRICES IN EUR ALL RIGHTS RESERVED

The prices are valid from January 1st 2024.  
All prices include VAT / MWST based on 19%.

The prices are per single item unless otherwise indicated.  
Please note that we reserve the right to make changes in the price list.

### ASSEMBLY

Most chairs require assembly.

### CONDITIONS OF SALE

All prices are subject to our standard Conditions of Tender and Sale.

All orders are accepted subject to being charged at the prices valid at the date of dispatch.

### WARRANTY

HOUE offers a five year warranty on all products. All maintenance instructions must be followed to obtain warranty.

### RETURNS POLICY

Written authorization must be obtained from HOUE prior to returning any products. Products returned without prior written authorization will be refused. HOUE only accepts the return of a product if it is a manufacturing defect.

Returned products are inspected by our Quality Control Manager and replaced or repaired if the damage is a result of a manufacturing defect. If it is determined not to be a manufacturing defect, the customer, along with the Quality Control Manager will decide which further actions to take.

Returned products will only be accepted if returned in their original packaging.

### SPECIFICATIONS

We reserve the right to change specifications and descriptions based on technical developments and the availability of materials.

## from trash to treasure

HOUE develops furniture taking environmental impact into consideration – our furniture always meets high standards focusing on comfort, design, and quality.

Under the concept MyTrash, HOUE turns Danish household plastic trash into high-quality design furniture: ReCLIPS, FALK and NAMI.

The MyTrash concept considers the whole product life cycle and ensures longlasting products. The plastic trash is no longer seen only as a problem but as the resource it is.

Basically, the furniture from HOUE is a result of mixing Danish design and Danish innovation and converting this new thinking and material into design furniture.

MyTrash  
**FALK**

INDOOR  
DINING & OFFICE

FALK is a collection of chairs with a plastic shell – plain or upholstered and with a variety of bases.

The shell is made from Danish household plastic trash and produced in Denmark. With FALK you are basically looking at the result of mixing Danish design and Danish innovation, and then converting this new thinking and material into a chair.

FALK Chairs are EU Ecolabel certified.

## MATERIALS

### INDOOR DINING & LOUNGE

#### FSC

Just as we depend on forests, forests depend on us. The Forest Stewardship Council® (FSC®) unite citizens, businesses, governments, and NGOs under a common goal: protecting healthy, resilient forests for all, forever.

#### EU ECOLABEL

The EU Ecolabel works to reduce the overall environmental impact from production and consumption. Therefore, the EU Ecolabel evaluates the entire product lifecycle and the environmental problems that arise along the way – for the benefit of the environment, climate, human and the earth's resources.

#### FABRICS

CURA fabric from Gabriel, contains 98% post-consumer recycled polyester, and 2% polyester.

Cura is made of polyester which is a material suited for environments with special requirements for cleaning.

Cura has a warm casual aesthetic with a vibrant melange effect. The fabric is soft with a voluminous texture. The fabric is OEKO-TEX® and EU Ecolabel certified.

CONNECT fabric from Gabriel, contains 48% New Zealand wool, 41% post-consumer rec pes, 9% pa, and 2% pes.

By connecting layers of wool and polyester, Connect offers a unique construction that combines the best of both materials to achieve high-performance properties.

Connect has a natural rustic elegance with a discreet metallic reflection. The fabric is OEKO-TEX® and EU Ecolabel certified.

#### PLASTIC

HOUSEHOLD PLASTIC TRASH (MyTrash)

MyTrash is our term for the recycled plastic that we use to create our collections; FALK, ReCLIPS and NAMI. This plastic is sourced from Danish household trash and repurposed into Danish design products.

By using recycled plastic, we are able to reduce our reliance on virgin materials and still produce high quality products with the same properties as new plastic in terms of performance and durability.

The recycled base material varies in color from batch to batch, which may result in minor color variations.

FALK shell is made of 75% plastic from Danish household plastic trash, 20% glass fibers, and 5% color pigment.

For cleaning wipe gently with a soft damp cloth.

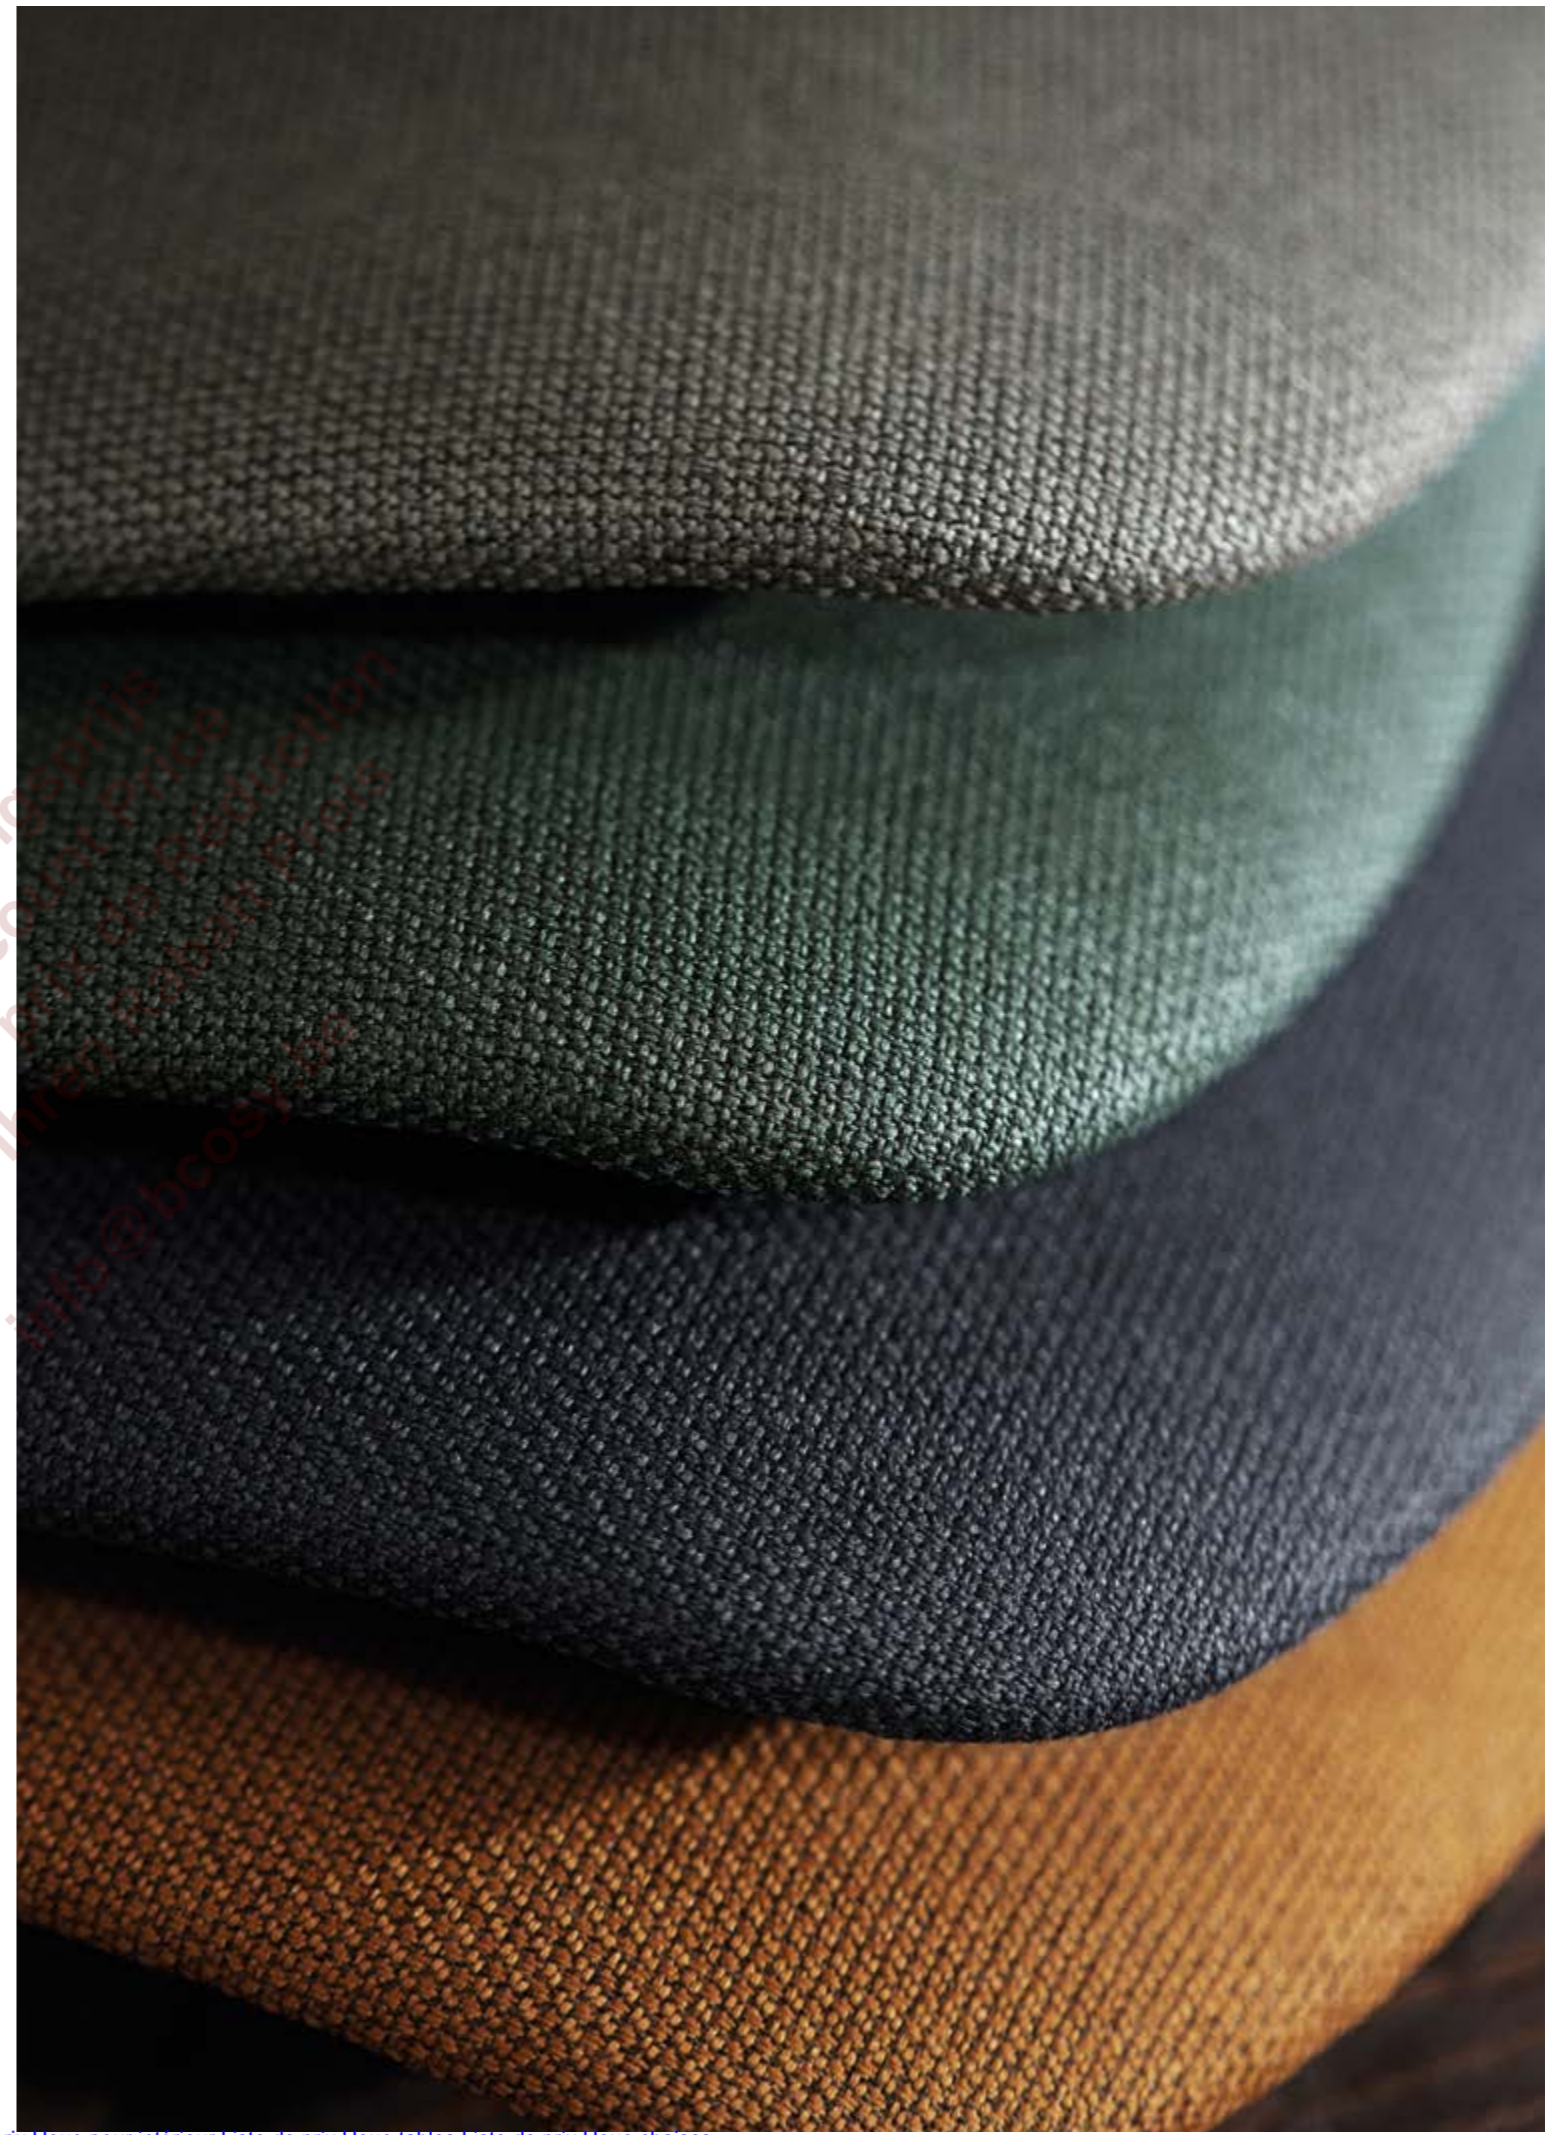

#### OAK VENEER

Our oak veneer is sourced from sustainably managed European forests (FSC® - FSC C153404). There is oak veneer outside and beech inside for use as the base for FALK Chair. It is highly resistant to wear and tear.

The oak veneer is pre-treated with water base lacquer. This protects the surface against mois and dirt.

Regular cleaning should be done with a damp cloth in lukewarm water with mild detergent (best are soap flakes). Wipe excess water off with a dry cloth. Do not use harsh detergents or chemicals on wooden furniture.

## INDOOR DINING & OFFICE

HEKLA Dining table lets aesthetics, function and engineering come together.

The lightness and almost floating way the tabletop balances on top of the simple, yet shapely wooden legs, is an homage to the engineered and classic.

A table where tradition and craftsmanship are a visual part of the overall expression.
